SILENCIO LOUVRE SYSTEMS

The Ultimate in Al Fresco Living

Silencio Louvres offer total control of sun & shade, while providing ventilation & rain protection.

- * Available powder-coated in any colour
- * Suitable for any house – traditional or modern
- * Freestanding or attached to buildings
- * Louvres can be automated to close when it rains
- * Ideal for outdoor dining & entertainment areas
- * All-aluminium opening roof system
- * Louvre-rotation through 180°; entirely quiet
- * European Somfy motor & remote control
- * Exclusive glide control system
- * Completely enclosed drive mechanism

Open – summer shade & ventilation

- * For shade, angle the louvres against the sun while still enjoying plenty of light
- * Create natural ventilation to provide cooling breezes

Open – winter sun

- * In cooler weather, enjoy the warmth of sunlight streaming through the louvres
- * Maximum light available
- * Passive solar heating

Closed tight – rain protection

- * No need to move inside when it rains
- * Louvres interlock to keep out the weather
- * Deep channels in each louvre carry rain water to the surrounding gutter

Closed – rain protection & ventilation

- * Open louvres slightly for ventilation and protection against light rain
- * Great for warm, humid conditions or occasional light showers
- * Ventilation and shade
